 TRUSTPILOT

# Why Should Recruitment Agencies Gift?

## Client retention

The most important client is the one you already have. Congratulating placements with an unexpected gift is an excellent way to ensure they think of you first when they are next looking for a job.

## Generate referrals

Delighting your clients with an unexpected and special gift will help ensure they do a share of your marketing effort; by telling their friends and peers about you.

## Help clients remember your company

Topping off your fantastic service with a placement gift congratulates candidates on their new position, whilst simultaneously promoting your business to their new colleagues

## Stand out from the crowd

In what is a highly competitive industry, anything that will help differentiate you from other Recruitment Agencies will ensure you find more clients.

**Recognise the value of your future relationship between yourselves and your client.**

## Our Service

Our service is designed to make ordering your gifts as easy as possible.

We save your company artwork and gift requirements meaning we can send your gift out same-day.

All we ask from you is to complete a small template and we do the rest.

## Our Champagne

We primarily use Baron Fuente Grande Reserve Champagne for our corporate clients. This Champagne has won many gold awards and is the House Champagne for many prestigious institutions including The Shard, Blenheim Palace and the National Gallery.

We also stock Prosecco, wine and non-alcoholic alternatives ensuring we can tailor-make your gift to suit budget and brief.

# Why Gift Personalised?

## Help people remember your company

We have found that gifting a branded bottle upon successful placement increases the rate clients return in the future. Adding their name and a small message gives your gift a personal touch.

## Marketing and generate referrals

Your happy clients will show their friends and family the stunning bottle, complete with your logo on the label, and it can stay out on show for many months and even years!
